What we do

Mid and senior level search

Our forte lies in recruiting mid and senior level executives, where fit matters as much as the CV and a wrong hire is expensive.

Sector depth

Twelve industries with dedicated recruiters, so the person calling your candidate understands the role being filled.

Exclusive mandates

We take exclusive mandates and fill positions across the country, including locations where you have no local network.

A competent team

Qualified professionals with long experience in diverse industries, supported by a database built role by role.

We deliver excellence by understanding the necessity of our client and discovering true talent for them.

Services in detail

Permanent staffing

Contingency hiring for middle and senior positions across IT, management, sales and marketing, banking and support functions.

- Role brief, calibration profiles, then a shortlist
- Fee on joining, with a replacement guarantee period
- Best suited to ongoing, repeatable hiring

Executive search

A retained model for senior, top management and CXO positions where confidentiality and market mapping matter.

- Mapped target companies and a longlist before outreach
- Discreet approach to passive, currently employed talent
- Structured assessment and reference checks

Turnkey recruitment

Large volume hiring for start-ups, new projects, new branches and team expansion, run as a project with a delivery plan.

- Dedicated recruiter pod and a weekly delivery plan
- Drives, walk-ins and lateral or campus mixes
- One point of contact for the whole build-out

How we engage

Model	Best for	How it runs	Commercials

Retained search	CXO, business heads, confidential replacements	Staged mandate with market mapping and a research report	Split across engagement, shortlist and joining
Turnkey project	New site, new product line, volume ramp	Dedicated pod, weekly targets, joint review call	Project fee or per-hire rate card by band
Consulting support	Compensation benchmarking, org structure inputs	Defined scope and timeline agreed upfront	Fixed professional fee

Our value proposition

Domain expertise across verticals

Recruiters who have worked their sector long enough to judge a profile, not just match keywords.

Guaranteed turnaround time

A committed TAT for every element of service delivery, agreed at the start of the mandate.

Value for money

Competitive commercials, and real value added to your selection system rather than more CVs in the inbox.

Consistent, compliant delivery

The same quality of service every time, with complete adherence to regulatory compliance.

A strong, experienced team

Highly qualified and committed professionals working under experienced leadership.

Flexible to your process

We adapt to how your hiring managers and HR team already work, rather than the other way round.

The recruitment process

01

Requirement gathering

A detailed intake with the hiring manager: role, band, must-haves, target companies and the deal breakers.

03

Shortlisting candidates

A calibrated shortlist with a written note on fit, compensation, notice period and motivation to move.

05

Help in negotiation

We manage expectations on both sides, handle counter-offer risk and help close the compensation conversation.

02

Candidate search and screening

Sourcing through job portals, our network and social media, and the Ace Talent database, followed by a first-level screen.

04

Interview scheduling

We coordinate the panel, brief the candidate before each round and keep the process moving.

06

Finalise the job offer

Offer rollout, documentation follow-up and regular contact through notice period until the candidate joins.

Where candidates come from

Job portals

Active candidates reached through paid access on leading portals, searched by role, band and location rather than by generic title.

Network and social media

Referrals and professional networks bring us passive talent that never applies to an advertisement.

Ace Talent database

Our own database, built mandate by mandate and kept current, gives the fastest first shortlist on repeat roles.

For a confidential or hard-to-fill role we add a mapping exercise: target companies, org structures and named individuals, agreed with you before anyone is approached.

Screening and quality control

What we check before a CV reaches you

- ◆ Role fit against the brief, with a written summary of relevant experience
- ◆ Current and expected compensation, and what is driving the move
- ◆ Notice period, buy-out possibility and a realistic joining date
- ◆ Location preference, relocation willingness and family constraints
- ◆ Stability, reasons for each change and any gaps in the record
- ◆ Reference and background checks on request, before the offer stage

What you get from us

- ◆ A shortlist, not a CV dump, with our recommendation on each profile
- ◆ A weekly status update on every open position
- ◆ Honest market feedback when a brief or a budget is not landing
- ◆ Candidate engagement through notice period to protect the joining
- ◆ A replacement guarantee within the period agreed in the contract

Why clients stay with us

Recruitment is judged on three things: the quality of the shortlist, how fast the first one arrives, and whether the candidate actually joins.

- ◆ One accountable owner per mandate, so nothing sits between two recruiters
- ◆ A committed turnaround time agreed before we start, then reported against
- ◆ Candidates briefed properly, so your panel spends time only on serious people
- ◆ Counter-offer and drop-out risk managed actively, not discovered on joining day
- ◆ Exclusive mandates taken seriously: we do not sell the same shortlist twice

Exclusive

We work exclusive mandates end to end

Confidential

Discreet handling for replacement and CXO searches

Accountable

Weekly reporting on every live position
